

# Item Preview

In QL2, it is easy to visualize how item content will appear within a created report. Just scroll to the bottom of the item interface and click the “Item Preview” link to generate a “mini report” with just the item segment for the current item.

Approach to Value / Market Levels  Item Completed

Valuation Basis	Approach to Value
<input type="text" value="a comparable new item"/>	<input type="text" value="cost"/>
Valuation Data Source	Market Level
<input type="text" value="anticipated wholesale costs of materials and labor to w"/>	<input type="text" value="primary retail, brick and mortar, single-store"/>
Market Trend	
<input type="text" value="generally stable"/>
